PORTFOLIO

ABOUT ME

Fourth-year Computer Science student building interactive 3D experiences: AR and VR scenes for the web with **A-Frame**, **Three.js**, and **WebXR**, and 2D games in **Godot**. Participated in **Global Game Jam 2026** as game designer and programmer. Seeking a developer internship to learn real-world workflows and contribute to production projects.

EDUCATION

Pibulsongkram Rajabhat University (PSRU) | Phitsanulok, Thailand

2023 - Present

Bachelor of Science in Computer Science (Expected Graduation: May 2027)

GPA: 3.90/4.00

PROJECTS & ACTIVITIES

Solar System AR Simulation

Solo project

- Markerless AR solar system in A-Frame and AR.js: 9 planet models, fly-to camera navigation, zoom, and teacher mode with Thai info panels

Digimon Digital World VR

Solo project

- Interactive WebXR scene in A-Frame: intro sequence, 3 evolution stations with 14 3D models, Omegamon fusion, and audio controls
- Wrote custom components for model auto-fitting, lab boundary, station logic, and fusion events

Adventure Clock

Solo project

- 2D action RPG in Godot (GDScript) with 4 switchable classes and 20-level progression
- Programmed enemy AI (8+ types, state machine, pathfinding), save/load, cutscenes, and 3 maps

Sheet Mask Ghost - Global Game Jam 2026

Team project (4 members)

- 2D top-down horror game in Godot: escape ghosts, collect keys, and find the exit
- Game design, level layout, and programming (player controller, flashlight, scene transitions)

SKILLS

- **Programming Languages:** JavaScript, C#, Python, GDScript
- **3D & XR:** A-Frame, Three.js, AR.js, WebXR
- **Game Engines & Tools:** Godot, Unity, Git/GitHub, Blender (Basic)
- **Other:** Debugging & testing, teamwork under tight deadlines (Game Jam)

ADDITIONAL INFORMATION

- **Languages:** Thai (Native) | English
- **Certifications:** Game Developer Training, Level 4 (2026); Secure Software Development & Application Security (2026); Samsung Innovation Campus: Intro to AI in the Workplace, Software Development Concepts and Testing with Python (2025); Prompt Engineer Workshop (2024)
